

The Hidden Agenda Revealed

Would a cashless society be a better way of life for all mankind? This is a question that has been asked over and over again by our world leaders. Should mankind be asking the bigger question, “What is the hidden agenda behind the concept of the cashless society”? An amazing truth is discovered as light is shed on what the hidden agenda truly is. The Anti-Christ will use the concept of the cashless society as a way to pursue his own agenda which is to set himself up as a god.

In 1978 a book was written by John T Sharritt from the Christian Missionary Society on Soon-Coming World-Shaking Events. The author writes, “At the present time experiments are being made for a cashless society. It will only be necessary to have an identification mark placed on your hand or forehead, visible only under a special light, to make your purchases at your stores. Computers will then do the rest! - Automatically deducting the amount from your bank account (144).”

What John Sharritt recognized over 25 years ago, is in fact, becoming a reality today. Beginning in 1993 a company by the name of Mondex developed a technology in which this system is called “Smart Card”. A Smart Card is a plastic like card, very similar to a credit card. The difference between the two cards is that the credit card has a magnetic strip on the back and the Smart Card has a micro-chip inside of it. The chip stores information such as identification and cash supplies. Not only is it being used in over 20 countries around the world, but it is also being used here in America’s back yard.

A 16 year old girl named Jessica, who works at the community Burger King does not get paid by a paycheck but with a “Smart Card”. During an interview she was asked the following questions:

Question 1: Jessica, how do you get paid?

Jessica: With a Smart Card

Question 2: How does your Smart Card work?

Jessica: Your paycheck goes directly to your Smart Card. If you want to take money off your card and use it for cash there is a charge of \$1.50 every time. If you want to buy clothes or a soda, there’s no charge. You can use it anywhere. It is a Visa Card.

Question 3: What are some thing good about getting paid this way?

Jessica: You get paid faster.

Question 4: What are some bad things about getting paid this way?

Jessica: You have to pay a fee when you want to take money out and you also have to pay a fee when you want to put money in your savings bank. (Bready)

According to this interview, the smart card system does not encourage individuals from having the possession of cash. There are no penalties for purchases made compared to penalties for cash transactions; this is a red flag for what lies ahead.

Today, large and small companies are adapting to this idea of becoming cashless. The change over would help with the overall efficiency of regular business operations, plus the cost would be considerably less for payroll, saving the company thousands of dollars. From a corporation’s point of view, this is a concept well worth looking into for future advantages.

The conclusion of a study that was compiled on, The Move toward a Cashless Society, from the AEI – Brookings Joint Centers, says, “... Cash and checks are not as desirable as many earlier studies suggest. In general the shift toward a cashless society appears to improve economic welfare.”(Swartz, 25)

Understanding these benefits was the motivation behind MasterCard to purchase stock at 51% in a company named Mondex. The corporation provides a cashless system. Imagine the kind of prosperity that lies ahead for this company now that Master Cards’ strength is supporting them. The name Mondex is a compound of two words, Monetary and Dexter. Webster’s New World Dictionary describes Monetary as a reference to money and dexter meaning on the right hand. Thus, Mondex means “Money on the right hand”.

Keep in mind, Mondex will still have its fair share of problems with these microchip Smart Cards. For instance, these cards can be damaged, lost or stolen. They can also be tampered with leading to the deception of personal identity. In 2002 the Federal Trade Commission projected that it costs over 48 billion dollars a year for banks and over five billion dollars for consumers resulting from the crime of identity fraud. This was a big reason why Motorola, producers of the microchips used in the Smart Cards, developed the bio-chip for human implantation.

In an article written by Chris Beard, The Cashless Society is Here, he tells us, “ Dr. Carl Sanders, Engineer of Electronics of the Motorola Company, was directed in 17 New World Order meetings to develop a device for global use in humans for economic and identification purposes” (2).

In response to that order, Dr. Sanders invented a bio-chip that is approximately the size of a grain of rice containing a rechargeable lithium battery. Over one and a half million dollars was invested in studying where in the human body the bio-chip would work best. They found that two places were the most appropriate. The first place was the forehead, right underneath the hairline and the second place is preferably on the back of the right hand.

Dr. Carl Sanders findings is exactly what the apostle John saw in the book of Revelation, “He causes all, both small and great, rich and poor, free and slave, to receive a mark on their right hand or on their foreheads, and that no one may buy or sell except one who has the mark or the name of the beast, or the number of his name” (Rev 13:16 & 17, NKJV). The accuracy of this scripture is remarkable.

The real turning point in Dr. Sander’s life was when he questioned a medical doctor concerning the battery which was made from lithium. He asked, “What would happen if the battery were to break down?” The Doctor’s reply was, “It will cause a grievous sore.” Shortly after that discussion, someone showed Dr. Sanders in the Bible where it says, “The first went and poured out his bowl upon the earth, and a foul and loathsome sore came upon the men who had the mark of the beast and those who worshipped his image” (Rev 16:2, NKJV). The reality of this truth struck Dr. Sanders in such a way that he converted his life over to Jesus Christ. He now serves the Lord giving seminars revealing the deception behind the concept of the cashless society.

Rev 13:7 mentions, “one who has the mark or the name or the number of his name” (NKJV). The Mark of the Beast represents the number of the world government. The Illustrated Davis Dictionary of the Bible says that, “The Beast is figuratively, a fierce

destructive power” (84). It represents the power of the world. The number 666 would be a phrase in Greek - Chi Xi Sigma; this means to stick into, scratch, to mark for the purpose to show ownership. Also the beast is mentioned at least 13 times in the book of Revelations. The Bible Readers Companion by Lawrence O Richards says, “The mechanisms needed to identify persons by number, and to control earnings and bank accounts electronically, are in place even now” (919). The copyright of this book is 1991. If things were in place then, what is happening now in 2004?

Thirteen years later, on Oct 13, 2004, Rev Chapter 13 is a reality. “The New York Times”, “The Cincinnati Post”, “The Seattle Times”, “The Washington Post”, “The Department of Health and Human Service”, “MSNBC”, and many others have confirmed that the FDA has approved the use of an implantable microchip in humans for the purposes of “medical use”.

Donna Bea Tillman, PH.D, from the FDA announced to the Manufactures of the Verichip, Applied Digital Solutions, Inc of Delray Beach, Fla., “As a result of this order, you may immediately market this device, subject to the general control provisions of the Act and the special controls identified in this order” (Tillman, 3). Not to long after the FDA approval was announced, Applied Digital’s Verichip Corporation signed a medical distribution agreement, on November 10, 2004, with Henry Schein one of the largest distributor of healthcare products in the combined North America and European markets.

According to the Washington Post “This implant would give doctors instant access to the patient’s records. Doctors would scan patients like groceries in a supermarket” (Stein, 1). Applied Digital Solutions suggest that those with the implant would receive more effective care.

What does this have to do with the cashless society? Actually it has everything to do with it. The makers of the Verichip are hoping that as a result of the FDA approval for implantation in humans for medical purposes, the chip would be a spin off for other uses. Ken Sgro, CEOcast for Applied Digital explains, “The VeriChip is a sub dermal (under the skin) RFID device that can be used in a variety of security, financial, emergency identification and other applications”. (Sgro, 2)

In George Orwell’s classic novel “1984”, he describes the government having control over the people almost completely. The Supreme ruler of the party was called Big Brother. The saying was, “Big Brother is Watching You” (Orwell, ch.1). Walter Cronkite said the following statement in his preface of this novel, “Orwell wrote his novel as an essay on ‘power’, how it is acquired and maintained, how those who seek it or seek to keep it tend to sacrifice anything and everything in its name” (2).

The ideas behind Cronkite’s statement help to reveal the hidden agenda behind the cashless society. The perception behind “Power” is the ability to control others. Allen Leigh wrote, “Government is an evolutionary thing and has only one direction to evolve; towards more control.” Critics say they see the FDA approval of the Verichip as “Big Brother”

ABC News gave a story on August 25, 1998 in England, about a professor named Kevin Warwick who had a computer chip surgically implanted into his arm. He was not prepared for the mental effects that took place as he expected some physical changes. He said:

I feel strange, now. I feel mentally different. When I am in the building I feel much more closely connected with the computer. I am not a separate

thing. I am a scientist, so that it is strange for me, but that's how I feel. It changed what I feel like mentally which I hadn't expected and which is very strange and a bit scary (ABC News, 10).

At New York's State University Medical Center an experiment with implanting electrodes in rat brains took place. The effects were the rats could actually be steered as if they were a remote control car going through an obstacle course.(Horgan, 1).

Does this seem far fetched? Norbert Wiener' in his book Cybernetics published in 1948, spoke of "neurological communications and control theory" (Kilde, 4). According to the article written by Rauni – Leena Luukanen – Kilde, MD, Former Medical Officer of Finland says, "This technology links the brains of people via- implanted microchips to satellites controlled by ground based supercomputers. The scary thing is technology is possible today for every newborn to be injected with a microchip" (1).

Some other interesting facts that Kilde article mentions is that the U.S. is discussing plans like, secret experiments that involve prisoner, soldiers, mental patients, handicapped children, deaf, blind, homosexuals and those considered not the norm by the so called 'experts'. The implanted person can be tracked anywhere through satellites by using low frequency radio waves. Using a land-based computer called RMS can send electromagnetic messages to the individual's nervous system. (1, 2)

Also in the Kilde article is the mention of electromagnetic stimulations that can cause behavior changes. Individuals with an implanted microchip can become more aggressive or sexually influenced. It can cause someone to see hallucinations or hear voices. These stimulations can also affect the muscles to be the cause of torturous muscle cramps. Certain NATO countries have been using this secret technology in their military.

The Human Rights agreement forbids the idea to control people without their knowledge or consent. Because of this very little information is available, both in scholarly and in professional journals. (3)

Today's supercomputers are so powerful they can monitor the entire planet's population. How will they make their way to monitor every home and every individual on the face of the planet? Simply, people will bite the bait and not even realize what that bait is. The convenience which a cashless society will have to offer is the bait. The security of feeling safe with the threat of terrorism, kidnapping, etc. is the bait. The advantage of efficient health care is the bait.

Webster's dictionary describes bait as anything used as a lure; enticement. It is a device used to attract or tempt. The cashless system makes logical sense all the way around. No doubt about it, the attraction is the benefits. In the book of Proverbs it says, "There is a way that seems right to a man, but its end is the way of death (Prov. 14:12, NKJV). Matthew Henry's Commentary makes a comment about this verse. It says, "They will perish with a lie in their right hand" (787). They, speaking of the person who does what they think is right and disregards what God's word says.

God warns anybody who will listen about a great deception that will take place. To beware that Satan has a goal, this is to be worshiped and to be in control. Jesus said, "Watch out that no one deceives you" (Matt 24:4, NIV). Satan will portray himself to be god and will demand worship. Don't be fooled, his end and all those who follow him will be cast into hell for eternity. The book of Revelation reveals to us this truth, "If anyone worships the beast and his image, and receives his mark on his forehead or his hand, he himself shall also drink of the wine of the wrath of God, which is poured out in full

strength into the cup of indignation. He shall be tormented with fire and brimstone in the presence of the holy angels and in the presence of the Lamb. And the smoke of their torment ascends forever and ever; and they have no rest day or night, who worship the beast and his image, and whoever receives the mark of his name” (Rev 14:9-11, NKJV).

As of the current date, December 2004, all those who receive the verichip based on an economic decision would not be receiving the mark of the beast. The mark of the beast may or may not be the verichip. Keep in mind the issue is not the chip itself but the purpose behind the chip that truly matters when determining what the mark of the beast is. Pat Necerato of the Verichip Underground Report had a recent email exchange with Dr. Tim Layhaye, end time and prophecy expert. In this email Dr. Lahaye said, “I do not see these modern chips as a threat because the issue is not just a mark but according to Rev 13; 4, 8, & 12, it is the worshipping of Anti-Christ that dooms people during the tribulation” (Verichip report, 3). He went on to say that he sees today’s technology as an indication we are about to see the capability of end time prophecy fulfilled.”

The scriptures tell us the whole purpose of having the mark is to show one’s allegiance to the beast. God’s word is very clear when it says, “...and cause as many would not worship the image of the beast to be killed” (Rev 13:15, NKJV). “If anyone who worships the beast and his image, and receives his mark on his forehead or his hand...” (Rev 14:9, NKJV). “Who worships the beast and his image, and receives the mark of his name.” (Rev 14:11, NKJV). Notice the key element here is worship. The focus is on the attitude and devotion of the individual’s heart.

Satan has been trying to steal the worship since the beginning of time. The book of Isaiah tells us that Satan said in his heart: “I will ascend into heaven, I will exalt my

throne above the stars of God; I will also sit on the mount of the congregation on the farthest side of the north; I will ascend above the heights of the clouds, I will be like the Most High” (Isaiah 14: 13 & 14, NKJV). In the time Satan tried to tempt Jesus he said, “All this authority I will give You, their glory; for this has been delivered to me, and I give it to whomever I wish. Therefore, if You worship before me, all will be Yours.”(Luke 4:6& 7, NKJV) Imagine that, Satan willing to give away his authority. Satan is willing to do whatever it takes to gain complete control. Here is another lie of Satan that can be exposed. He is fully aware that by being in control, there lies the power. The power is the authority. If there was a possibility of Jesus ever being able to be deceived, then Satan would not have given Jesus what he had promised. Remember he is a liar and the father of all lies. The authority would belong to the one who is in control or to the one who is worshipped.

On the other hand, God shows us in his word what it is that He wills to do. He says, “I will give you a new heart and put a new spirit within you. I will take the heart of stone out of your flesh and give you a heart of flesh. I will put My Spirit within you and cause you to walk in My statutes, and you will keep my judgments and do them. ...I will be your God. I will deliver you from all your uncleanness” (Ezekiel 36:26-29, NKJV). Please, make no mistake about the differences in the will’s between a loving God and the evil of Satan. God’s will is for the good of mankind and Satan’s will is for himself.

Satan is a deceiver and deceives for the purpose of his own agenda. The bible tells us, he deceived those who received the mark of the beast and those who worshipped his image” (Rev 19:20, NKJV). God’s heart cry’s out to bless those who will listen. He says, “Behold, I am coming quickly! Blessed is he who keeps the words of the prophecy of this

book” (Rev 22:12, NKJV) He also says, “Blessed are those who do His commandments that they may have the right to the tree of life, and may enter through the gates of the city” (Rev 22:14, NKJV). John tells us that, “For this is the love of God, that we keep His commandments. And His commandments are not burdensome” (1 John 5:3, NKJV). His Commandment, “And you shall Love the Lord your God with all your heart, with all your soul, with all your mind, and with all your strength. This is the first commandment and the second, like it, is this: You shall love your neighbor as yourself.” There is no other greater than these” (Mark 12:29, NKJV).

The hidden agenda behind the cashless society is for the Anti Christ to set up his kingdom to be worshipped as a god. Those who choose to worship him will be marked with a chip of deception. The truth is; those who choose to worship God are also marked. They are marked with a heart of flesh, with a heart of love for God and for others. When God has control over the individual’s life that is marked with His love, there is the power of God displayed.

Jesus said in reply to the temptation by Satan “You shall worship the Lord your God, and Him only you shall serve” (Matt 4:10, NKJV). Bottom line is there is only One who is worthy to receive glory and honor and power. The One is the Lamb of God; the Lord Jesus Christ. “To Him who loved us and washed us from our sins in His own blood, and has made us kings and priests to His God and Father, to Him be glory and dominion forever and ever. Amen” (Rev 1:5&6, NKJV).
